

Browse and Search Basics

Within WHOAS, it is possible to browse by Issue Date, Authors, and Titles. You can browse across the entire content of WHOAS, or select specific Communities & Collections

The screenshot displays the WHOAS website interface. At the top left is the WHOAS logo and name: "WHOAS: Woods Hole Open Access Server" with the tagline "a repository for the Woods Hole scientific community". To the right of the logo is a "Login" link. Below the logo is the text "WHOAS Home".

The main content area is divided into several sections:

- Search WHOAS:** A search box with a "Go" button.
- Browse:** A list of browsing options: "All of WHOAS", "Communities & Collections", "By Issue Date", "Authors", "Titles", and "Keywords".
- My Account:** Links for "Login" and "Register".
- Statistics:** A link for "View Usage Statistics".
- Discover:** A list of authors with their respective document counts: Johnson, Mark P. (121), Doney, Scott C. (110), Watkins, William A. (81), Weller, Robert A. (66), Aguilar De Soto, Natacha (63), International Association of Aquatic and Marine Science Libraries and Information Centers (57), Duda, Timothy F. (53), Beardsley, Robert C. (52), Lynch, James F. (47), Melillo, Jerry M. (39), and a "View More" link.

The right side of the page features:

- Welcome to the Open Access Server of the Woods Hole Scientific Community.** A message for members to contact the project manager whoas@whoi.edu.
- Communities in WHOAS:** A section titled "Select a community to browse its collections." with a list of links: "International Association of Aquatic and Marine Science Libraries and Information Centers", "Marine Biological Laboratory", "MBLWHOI Library", "SEA Education Association", "USGS Science Center for Coastal and Marine Geology", "Woods Hole Consortium", and "Woods Hole Oceanographic Institution".
- Search WHOAS:** A search box with a "Go" button and the instruction "Enter some text in the box below to search WHOAS."
- Recently Added:** Two entries with titles and brief descriptions:
 - Reconstructing the ocean's interior from surface data** by Wang, Jinbo; Flierl, Glenn R.; LaCasce, Joseph H.; McClean, Julie L.; Mahadevan, Amala (American Meteorological Society, 2013-08). Description: "A new method is proposed for extrapolating subsurface velocity and density fields from sea surface density and sea surface height (SSH). In this, the surface density is linked to the subsurface fields via the surface ..."
 - Towards improved socio-economic assessments of ocean acidification's impacts** by Hilmi, Nathalie; Allemand, Denis; Dupont, Sam; Safa, Alain; Haraldsson, Gunnar; Nunes, Paulo A. L. D.; Moore, Chris; ... Description: "Hilmi, Nathalie; Allemand, Denis; Dupont, Sam; Safa, Alain; Haraldsson, Gunnar; Nunes, Paulo A. L. D.; Moore, Chris; ..."
